EDUCATION

Course	College / School	Year	CGPA / %
B.Tech (ECE)	Netaji Subhas University of Technology	2023–2027	Now attending
CBSE Board (Class XII)	RPVV Sector-5, Dwarka	2022	91%
CBSE Board (Class X)	RPVV Sector-5, Dwarka	2020	88%

INTERNSHIP

Full Stack Development Intern **Jun 2026 - Sep 2026**

Sun Innovation Web Tech | Remote

- Worked as a Full Stack Development Intern for a 3-month tenure, primarily focused on building and maintaining **React-based front-end** interfaces for production-level applications.
- Collaborated with the engineering team to develop, test, and ship **production-grade features**, translating design specifications into responsive, reusable React components.
- Integrated front-end components with **REST APIs**, handled state management, and optimized UI performance for real-world user traffic.
- Participated in code reviews and Git/GitHub version-control workflows to ensure consistent, maintainable, production-ready code.

AI Azure Intern **May 2024 - Jun 2024**

Edunet Foundation – Microsoft Learn – AICTE | Virtual

- Gained hands-on experience in Artificial Intelligence, Machine Learning, Deep Learning, and Generative AI through mentor-led sessions and practical projects.
- Developed ML models using Python, Pandas, and Scikit-learn for regression and classification tasks.
- Built projects including Medical Insurance Cost Prediction, Used Car Classification, and a Content-Based Movie Recommendation System.
- Applied feature engineering, model training, and evaluation techniques to improve predictive performance.

PROJECTS

Banking System Backend GitHub

Node.js, Express.js, MongoDB, Mongoose, JWT, Postman

- Developed a secure RESTful banking backend using **Node.js**, **Express.js**, and **MongoDB**, implementing **JWT-based authentication**, bcrypt password hashing, and protected API routes.
- Designed and implemented **Account**, **Transaction**, **Ledger**, and **Blacklist** data models to support account management, transaction tracking, secure logout, and audit-friendly financial workflows.
- Built transaction processing APIs with **idempotency validation** and leveraged the **MongoDB Aggregation Pipeline** for accurate ledger-based balance computation, ensuring consistency and preventing duplicate transactions.
- Integrated Nodemailer for automated email notifications, managed configuration using dotenv, and tested end-to-end APIs with Postman to validate authentication and banking workflows.

SERVD – AI-Powered Recipe Generation Platform GitHub | Live Demo

Next.js, React, Strapi CMS, Clerk, PostgreSQL, Gemini AI

- Engineered a **full-stack** web application that generates **AI-driven recipes** from user-provided pantry ingredients, improving meal discovery and reducing ingredient wastage.
- Integrated **Google Gemini AI** for dynamic recipe generation and implemented secure **authentication**, **session management**, and **protected routes** using **Clerk**.
- Designed **RESTful backend workflows** with **Strapi CMS** to manage user profiles, pantry inventory, and saved recipes, ensuring efficient data handling and retrieval.
- Deployed the application on **Vercel** and resolved end-to-end integration challenges involving API security, CMS permissions, authentication, and third-party service configuration.

TECHNICAL SKILLS

- **Languages:** Java, Python, SQL, JavaScript
- **Web Development:** Next.js, React.js, Node.js, Express.js, Tailwind CSS, Strapi CMS, REST APIs
- **Databases:** PostgreSQL, SQL, MongoDB
- **Machine Learning:** Scikit-learn, NLP, Classification Models
- **Core Subjects:** Data Structures & Algorithms, Object-Oriented Programming, DBMS
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Clerk, Vercel, Postman

ACHIEVEMENTS

- Solved **200+ Data Structures & Algorithms (DSA)** problems on LeetCode, strengthening problem-solving and coding efficiency.
- Selected as **Semi-Finalist** in **Flipkart GRiD 8.0**, a national-level engineering and problem-solving competition.
- Awarded the **Foundation For Excellence (FFE) Scholarship** for academic excellence and consistent performance.
- Selected as a **Finalist** in the **ET AI Hackathon 2.0** among 60,000+ participants nationwide for developing an AI-powered solution to address real-world challenges.

POSITIONS OF RESPONSIBILITY

- **PR Head** | Canvas – Fine Arts Society, NSUT 2025 – Present
- **Senior Executive Member** | Junoon – Photography Society, NSUT 2025 – Present
